

My 3D Landscape

STUDENT POSTER COMPETITION

Start: April 1, 2015 – Last Option for Online Submission: May 30, 2015

DLA 2015

in Dessau, Germany
16th international conference of information technologies in landscape architecture
June 4 - 6, 2015

You are a landscape architecture student or a recent graduate of a landscape architecture program. You are already experimenting with how to communicate your work in three dimensions. If you are looking for THE platform to showcase your work, submit your poster with your best 3D (or 4D) Landscape Architecture work in A0 size (portrait).

Present the result process and include all information; source(s) of data, details of your team and name of software program(s) you have used.

Participants with the 5 best posters will give a short presentation in the presence of foremost landscape architects in Europe on the 6th of June 2015 in Dessau, Germany during the DLA 2015 conference.

The evaluation will be done by the conference participants, and the criteria is:

- Innovation and creativity of project described
- Complexity of project
- Layout and level of communication of poster

The **DLA 2015** poster competition will award the following prize money:

- A) First prize: 500 €**
- B) Second prize: 350 €**
- C) The next three best posters will receive 200 € each.**

The five winning posters will be published in DLA 2016 proceedings.

Special discount for registration and accommodation is available for contributors of all poster submissions. Students submitting a suitable poster online are invited to attend three days for the fee of one day.

The DLA poster competition is sponsored by leading CAD and GIS Companies.

Deadline for last digital submission: **May 30, 2015**

Poster submission portal: <http://dla.loel.hs-anhalt.de/dla2015>

You may submit online early in order to have time for visa processes when necessary.

Please contact us in this regard after submission and acceptance of posters.

Please send your feedback on this announcement to: The DLA Team la@loel.hs-anhalt.de.

Total of 50 international lectures and 8 hands-on workshops on new tools for digital landscape architecture (see separate poster).
